

12th ASIA PACIFIC CONFERENCE ON TRANSPORTATION AND THE ENVIRONMENT

Xi'an, China, 11-12 November 2022

Transport related developments in many countries of the Asia Pacific region have led to a number of environmental impacts and concerns over the likely consequences of these impacts. The national and regional transportation infrastructure developments and traffic operations in urban centres in particular, require careful planning so as to mitigate the negative **social and environmental impacts**.

The **online conference** covers various modes of transportation (air, land and sea) and inter-modal operations. It addresses the **social and environmental related issues of all aspects of transportation operations and infrastructure development**, encompassing activities in different phases such as Planning, Design, Construction, Maintenance, Rehabilitation, Management, Research and Training.

CONFERENCE TOPICS

- Economic, social and environmental issues of transportation development
- Transportation safety
- Impacts of land/sea/air transport operations
- Control of transport-related air pollution, noise, vibration etc.
